1. Use Case 02 - *<<Customer Health Check>>*

Test Case ID	**TC01 - Reminder Settings**
Test Objective	**The user can set a reminder to log their mood**
Preconditions	The user has navigated to the home page
Test steps	1. Select "Reminder Settings" on the home page
	2. Turn reminders on
	3. Input a reminder date and time
	4. Select "Set Reminder"
Input Values	Reminder Date
	Reminder Time
Expected results	The reminder date and time are successfully set

Test Case ID	**TC02 - Reminder Notification**
Test Objective	**The system reminds the user**
Preconditions	The user has to have set his reminder on the reminder page and hit submit
Test steps	1. Set reminder is selected
	2. Wait till the allocated time has passed for the reminder's set time/day
	3. The system notifies the user to "rate their day" at the appropriate time
Input Values	Reminder Date
	Reminder Time
Expected results	The system will remind the user to do the rate their day feature

Test Case ID	TC03 - Rate Day
Test Objective	**The user can rate their mood for the day**
Preconditions	The user has navigated to the home page
Test steps	1. Select the "Rate Your Day" option 2. Submit your rating
Input Values	Rating for the day
Expected results	The user's rating for the day is displayed to them and stored in the system.

Test Case ID	TC04 - Rate Day Local Storage
Test Objective	**The user's rating is stored and can be updated**
Preconditions	The user has already input a rating for the day and has navigated to the home page
Test steps	1. The user selects the "Rate Your Day" option 2. The user should observe that their previous rating is there 3. The user can update their rating and submit it
Input Values	Updated rating
Expected results	The rating updates and is saved upon the user selecting submit.
